FAMILY CAMPS FOR THE WHOLE FAMILY.

Camps are designed for the whole family to participate in, including siblings. They allow families to have a family holiday: network with other families: learn new information and new strategies: re-energise and help to increase confidence of the whole family.

They are a great opportunity to experience our services unique culture. Each child with autism is allocated a support worker who will model individual strategies and work closely with each family. We focus on positive behaviour

supports to help families achieve goals. Siblings will be paired with other siblings and enjoy activities especially for them.

Camps are often a good stepping stone into our other MASS services. Sibling Camps are also offered from time to time.

We aim for families to leave camp with an enhanced sense of confidence and optimism.
