

Mansfield Autism Statewide Services (MASS) is a highly regarded not-for-profit, independent organisation, which delivers innovative educational, training and residential programs for people with ASD from infancy to adulthood.

The introduction of the NDIS has created the need for MASS to employ a number of new staff; this in turn has led to an opportunity for a full time, experienced and dedicated Human Resources Manager to join our team.

If you would like to work in an organisation which is dedicated to providing high quality service to people with ASD please phone (03) 5775 2876 or email info@autismmansfield.org.au for a position description.
