

Stronger Families

A 5 day/night intensive stay for the whole family!
A time to connect with others while supported by caring, compassionate, autism-trained professionals.

Stronger Families builds social, recreational and communication skills. We have professional expertise in autism and offer individualised strategies and supports in a purpose-built rural setting .

Our support is autism-specific.

Making connections

It is the community experience of Stronger Families that makes it so special. Families find immense value from the support of others going through similar experiences. Autistic young people meet and support each other. Parents connect and share time together. Siblings enjoy their own program.

A supportive family atmosphere

Practical and inclusive support at our accommodation facilities for the whole family. Our Stronger Families intensive stay runs from our beautiful rural locale in Mansfield for five nights, with a focus on being in nature. Stronger Families is open to families across Australia.

Parent training and follow up support

Parents have access to autism training from behaviour support practitioners and see strategies in practice over the 5 days. We offer built-in follow up support to encourage the transfer of new strategies to the home.

A range of activities

We offer a balanced schedule with autism education, relaxation, outdoor experiences, nature, art and craft, yoga, games, healthy foods and exercise.

Health and wellbeing

We ditch the screens and engage in simple activities for health and wellbeing. We love getting outdoors and enjoying nature.
